### **About the Rangeview Library Friends Foundation**

The Rangeview Library Friends Foundation was created in 2009 to raise financial support for RLD from the private sector. The Foundation is a nonprofit corporation organized solely for community and educational purposes within the meaning of section 501(c)(3) of the Internal Revenue Code. The Foundation recognizes the importance of providing quality resources, programs and materials to the public through Rangeview Library District (the "Library") and the benefit of providing funding for additional programs. Its mission is to generate broad-based public support and participation in order to forward and support RLD's mission to "open doors for curious minds" by enhancing the public's understanding and enjoyment of the Library through the use of special programs, activities and projects; and to work with RLD to raise money through contributions so that capital projects, programs and activities may continue to be provided for the general public.
