

ANYTHINK GROWS

COMMUNITY GARDENS PROJECT

Community members are invited to build and grow the 2011 Anythink Gardens. Plant and harvest vegetables, herbs, fruit and flowers. Meet your neighbors, learn how to garden and teach what you know.

I want to reserve a garden plot at

____Anythink Commerce City Community Garden

____Anythink Perl Mack Community Garden

As a community gardener, I understand the following:

- Dues for the 2011 gardening season are \$30 for each plot (approximately 10 feet by 10 feet). Work exchange opportunities are available.
- Only organic pesticides, herbicides and fertilizers are used.
- I will participate in group tasks such as weeding common areas, caring for community plantings and areas, and caring for gardening tools.
- I may be able to obtain seeds at low or no cost through Anythink Libraries.
