Anythink ("Owner") Administration Building, 1185 W. 124th Ave, Westminster, CO

Request for Qualifications & Proposal – CM/GC Services for Office Building Improvements and Interior Renovation

Publication date: November 6, 2025

December 5, 2025 @ 5:00 PM MST Responses due:

About Anythink Libraries

Anythink Libraries serves the residents of Adams County, Colo., with seven existing branches in Bennett, Brighton, Commerce City, Thornton and the Perl Mack neighborhood of Denver. The library also offers outreach services through Anythink in Motion, the district's bookmobile which visits neighborhoods and communities throughout the county. With a focus on innovation, Anythink's award-winning approach to library service is recognized by industry leaders and organizations across the

Anythink's vision is to be the catalyst for innovation in Adams County - a place where people are happy, healthy, safe and smart. We support lifelong learning for children, families, artists and entrepreneurs through hands-on programming, popular resources, and the one-on-one assistance of our dedicated staff.

As Anythink looks to expand its reach and services, this project will provide enhanced facilities for the colocation of existing staff and new hires. This building will be for Anythink's use only with no other tenants.

Project Summary

Anythink Libraries ("Owner"), requests qualifications and proposals from general contractors in connection with the 16,084 SF Anythink Administrative Building project, Westminster, CO to provide base building improvements and extensive interior renovations to convert existing medical office space into Anythink's administrative headquarters.

Among the space program elements within the General Contractor's scope of work includes:

- Department directors and staff offices
- Hotelling offices
- Lockers
- Workstations (open office)
- Print/copy stations
- Lobby and reception
- "Swag boutique"
- Receiving area
- Restrooms
- Janitor closets
- Vending
- Breakroom
- Kitchenette
- Conference rooms
- Server and IT infrastructure room(s)
- Exterior components likely to include:
 - Electric car charging stations
 - 0 Patio/break area
 - Bike racks

The Owner has retained Davis Partnership Architects and JRS Development Management, LLC for the design and execution of the project.

Scope of Work

<u>Scope of Work – Preconstruction Services</u>

- Work collaboratively with Owner and design team to establish construction-related project goals and priorities
- Evaluate and inform Owner and design team of market conditions and risks with respect to labor, equipment, materials, budget, delivery schedules and related items, including recommendations on early purchasing of key long-lead items
- Provide recommendations and guidance to Owner and design team on all matters of design, materials, methods, systems and assemblies; including reviews of constructability
- Provide recommendations and guidance to Owner and design team on matters of scheduling, phasing, product availability and procurement schedules
- Provide recommendations and guidance to Owner and design team on matters of quality, sustainability, aesthetics, performance and long-term value
- Provide comprehensive construction budget and management of construction budget to hold to established budget through time of final pricing/GMP amendment
- Attend design and coordination meetings as requested by design team and Owner
- Provide CPM construction scheduling, including long-lead items and logistics plan
- Inform Owner and design team of schedule and budget risks along with methods to control and minimize negative impacts of such risks
- Review and evaluate design documents completeness and provide recommendations to Owner and design team to improve the clarity and comprehensiveness of bid documentation to minimize course-of-construction changes
- Produce comprehensive milestone estimates
- Develop value engineering alternatives, recommendations and tracking of such items to control costs, control risks, meet schedule and improve long-term performance of project
- Prequalify subcontractors and suppliers to reduce project risks
- Establish, at design completion, a fixed price for construction to the satisfaction of Owner and in conformance with established budget

Scope of Work - Construction Services

- Manage and execute all aspects of construction, construction phasing & logistics, site supervision & safety
- Cooperate with Owner on communications plan for informing staff and public about construction matters as requested
- Coordinate with all authorities having jurisdiction over the project as required
- Provide comprehensive CPM schedule and periodic updates, including near-term schedules
- Provide reporting on trending costs of construction reflective of potential change orders
- Report on potential construction schedule and budget risks upon discovery of such risks
- Provide utility installation coordination for all public and private utilities servicing the project (as required)
- Provide coordination of construction-related permits and inspections, including Owner's material testing entity
- Perform project closeout tasks as required, including tasks associated with AHJ requirements
- Generate and maintain accurate as-built documentation for turnover at project completion
- Coordinate and cooperate with Owner and Owner's consultants and vendors throughout course of project
- Perform other CM/GC related services as required by AIA A133-2019 and AIA A201

CM/GC Subcontractors--Bidder List & Anythink Preferred Contractors

Anythink reserves the right to approve CM/GC's subcontractor bidders lists and may elect to have the CM/GC subcontract with Anythink preferred subcontractors and suppliers, provided such subcontractors and suppliers are deemed agreeable to CM/GC and meet CM/GC's subcontractor qualifications and contracting standards.

Proposal Information & Requirements

Schedule of Events (dates subject to change)

<u>Item</u>	<u>Dates (subject to change)</u>
Issuance of RFQP	Nov 6, 2025
Facility Pre-Proposal Tour	Nov 25, 2025, 9:00 AM @ Site
CM/GC respondent questions due	Nov 26, 2025
Anythink answers to CM/GC respondent questions	Dec 1, 2025
Qualifications & Proposal due	Dec 5, 2025, 5:00 PM MT
Anythink shortlist determination	Dec 9, 2025
Anythink interviews of shortlisted CM/GC respondents	Dec 11, 2025
CM/GC award notification	Dec 11, 2025
Initiation of preconstruction services	Jan 5, 2026
Construction document completion	Late Mar 2026
Permitting approval(s) received	Mid July 2026
Final Pricing/GMP amendment	Early May 2026
Start of construction	Early Aug 2026
Construction completion	Mid Apr 2026

Table of Submittal Requirements and Format

<u>ltem</u>	<u>Title</u>	<u>Description</u>	
1—Firm			
1A	Firm Qualifications	Current completed AIA A305 – Contractor's Qualification Statement. Note: the requested financials are to be provided as a separate pdf titled "CONFIDENTIAL FINANCIALS.pdf"	
1B	Firm Experience Narrative	Summary of firm experience, with a focus on strengths which are applicable to this type of project.	
1C	Firm Project Examples and References	For projects of similar type and/or scale and complexity, provide four (4) project examples/references. Include the following information for each project: • Project name and description • Year completed • Location (reference projects within 100 miles of project location only) • Construction budget • Owner contact name and contact information • Architect contact name and contact information	

	I /- /	
1D	Firm A/E/C Communication and Management Platform &	Provide name of online A/E/C workflow management platform used by firm. Provide sample budget formats for preconstruction cost trend
	Budget Management Formats	tracking/VE and construction phase budget management tool(s) to
	(including Preconstruction)	manage actual spend and pending/potential cost impacts.
	(including Freconstruction)	manage actual spend and pending/potential cost impacts.
2—Team		
2A	Team Experience	Summary resumes of each key team member to be directly and
		significantly involved in the project.
		Include the following information:
		Name and job title
		Years of construction experience
		Year with firm
		Project list with role played by team member
2B	Team Commitment	For each team member submitted within 2A (above), provide the level of
		involvement in percentage terms of workload to be committed to project.
		If a team member's involvement varies by phase, identify percentage of
		involvement by team member, by phase. Address both Preconstruction
		and Construction work.
3Appr	roach	
3A	Project Approach — Cost,	Provide an itemized list and narrative of methods to manage cost,
	Schedule, Phasing and	schedule, phasing and performance risks inherent in the project's pricing
	Performance Risk	and execution of work in the current market.
	Management	
3B	Project Approach —	Describe how a material change in scope, costs or schedule would impact
	Changes to baseline project	CM/GC overhead costs.
	assumptions	
3C	Project Approach — Self-	Provide listing of all scopes of work typically self-performed or potentially
	Performed	proposed as self-performed by CM/GC. If none, declare "none." It is to
	Construction Scopes	be assumed that NO direct trade self-performed work is to occur in
		connection with this project. If any significant scopes (CSI direct trade
		divisions) are proposed by CM/GC, Anythink must concur and a minimum
		of three (3) bona-fide bids are to be provided by subcontractors directly
		to Anythink. Anythink will select the lowest qualified bid.
4—Costs		
4A	Complete "Exhibit; CM/GC	Provide completed exhibit. Do not leave any incomplete cells. Information
	Project Costs; Overhead &	provided will be incorporated into the form of contract for construction.
	Profit"	The state of the s
4B	Complete "Exhibit B; CM/GC	Provide completed exhibit. Do not leave any incomplete cells. Information
70	Overhead/General Conditions &	provided will be incorporated into the form of contract for construction.
	General Requirements ("GCs &	provided will be incorporated into the form of contract for construction.
	GRs")"	
5—Ackno	pwledgments	
5A	Acknowledgement — Change	Provide acknowledgement and agreement that overhead and profit (fee)
<i>3</i> A	Order Markup	costs for any change shall not exceed a total of 15%, inclusive of material
	<u>'</u>	suppliers, subcontractors and CM/GC.
5B	Acknowledgement — Self-	Provide acknowledgement and agreement that any work proposed as
	Performed Work	self-performed by CM/GC must be pre-approved by Owner and is
		subject to at least three (3) bona-fide bids for each scope of work.

5C	Acknowledgement — Open Records	Provide acknowledgement that response to RFQP and all other project-related documentation is subject to the Colorado Open Records Act (CORA).
6—Condi	tions, Clarifications, Exclusions & Ex	ceptions
6A	Conditions, Clarifications, Exclusions & Exceptions	Provide a detailed list of clarifications, qualifications, exclusions and/or conditions to this proposal.
7—Autho	prization	
7A	Authorization	Provide firm name, title, date and authorizing signature validating the response to RFQP.

Form of Contract

It is currently anticipated that a modified version of the AIA A133-2019 and AIA A201 form of contract will be used for this project. Modifications to this contract include language required by law and other terms and conditions as deemed appropriate by Anythink's legal counsel.

Communication & Response Format

Responses to this RFQP are to be addressed to: Mr. Mark Fink, Executive Director, Anythink Libraries, 5877 E. 120th Ave. Thornton, Colorado 80602

Inquiries regarding this RFQP are to be sent by email to Justin Sager, jsager@jrsdm.com.

Responses to this RFQP to be submitted by email (only) to: Mr. Mark Fink, Executive Director, mfink@anythinklibraries.org with CC to Justin Sager, jsager@jrsdm.com.

Responses are to be ONE E-MAIL ONLY, which is to include 2 FILES (see 1 & 2 below). The maximum total size of the email is to be less than 25 MB. If needed, a downloadable link to PDF FILE #2, CONFIDENTIAL FINANCIALS, can be included in submittal email instead of attachment.

(PDF FILE #1) NON-CONFIDENTIAL PDF file, which is to include the completed, current, AIA A305 and no more than 40 additional pages addressing all other submittal requirements outlined in the table above, EXCEPT financial documentation. (PDF FILE #2) CONFIDENTIAL FINANCIALS PDF file of the AIA A305 requested financial documentation. This file has no specific page count limitation.

It is recommended that RFQP respondents send email using proof of delivery and read receipt electronic notifications. An acknowledgement of Anythink receipt will be provided. If you do not receive an email acknowledgement within 12 hours, please send a separate email to jsager@jrsdm.com.

Evaluation & Selection Criteria

The Owner's selection committee will evaluate responses to this RFQP using the following ranking methodology.

Item	Points
1—Firm	15
2—Team	40
3—Approach	5
4—Costs	40

A response to this RFQP must be complete and in full accordance with all information requested herein. Non-conforming responses will not be considered. Owner reserves the right to amend the RFQP and/or request additional information as deemed necessary by Owner for Owner to assess respondent CM/GC qualifications to the satisfaction of Owner. Owner reserves the right to select CM/GC that is deemed by Owner to be in the best interests of Owner.

Exhibits to Include in within Submittal Requirement "4--Costs"

ltem	Description	Response
Preconstruction Fee	Provide all-inclusive fee for all preconstruction services,	
	including cost estimating, milestone design estimates,	
	design collaboration on systems and assemblies, value	
	engineering and cost savings recommendations, scheduling	
	and phasing, logistics planning, determining methods for	
	obtaining best value for Owner's benefit, procurement	
	recommendations, construction cost risk mitigation	
	measures and other reasonable preconstruction requests	
	made by design team and Owner. Provide total not-to-	
	exceed, lump sum fee (\$), inclusive of direct costs,	
	indirect/overhead costs and any reimbursables, as	
	applicable.	
CM/GC Fee (%)	Provide a fixed fee for construction based on a budget of	
	\$4.25M. Provide fee in terms of % of cost of construction	
	(direct construction and overhead costs).	
Self- Performed Work	Provide a percentage (%) mark-up on any self-	
Fee	performed work which could potentially apply to the	
(if applicable)	project.	
	List any trades which CM/GC could potentially request	
	Owner to approve for self-performance.	
	Proposal is to assume that NO self-performed work will	
Surety	occur on the project.	
Surety	Provide percentage rate (%) for CM/GC to provide a Payment	
Builder's Risk	and Performance Bond for the project.	
Insurance	Owner may request Builder's Risk Insurance policy to be provided by CM/GC. Provide percentage rate (%) for the	
insulance	total cost of Builder's Risk Insurance for the entire	
	project duration.	
Subcontractor Default	Owner may request Subcontractor Default Insurance to be	
Insurance	provided by CM/GC. Provide percentage rate (%) for the	
	total cost of Subcontractor Default Insurance for the	
	entire project duration.	
General Liability	Provide percentage rate (%) on cost of work for	
Insurance	General Liability Insurance.	
Change Order Markup	Provide acknowledgement and agreement that overhead	
	and profit (fee) costs for any change shall not exceed a total	
	of 15%, inclusive of material suppliers, subcontractors and CM/GC. Multiple mark-ups introduced by any subsidiary or	
	subsidiaries of CM/GC, subcontractors or suppliers will not	
	be permitted.	
Labor Rates	Provide labor rates applicable to 2026 for all staff intended to	
	be assigned to project.	
CM/GC Overhead	Complete General Conditions and General Requirements	
	("GCs & GRs") table below. Overhead costs are to include	
	all necessary labor (fully burdened), materials, equipment,	
	supplies and other such items necessary to fully execute the project, exclusive of subcontractor/subtrade direct	

construction costs. No CM/GC direct or indirect costs are to be assigned to any subcontractor costs/cost of work CSI divisions for preconstruction budgeting or at the time of the establishment of a fixed price for construction; all such costs must be included within CM/GC's general conditions and general requirements (only).

Assume a construction schedule of nine (9) months.

Enter "Total Value of GCs/GRs" from completed Exhibit B.

Exhibit B; CM/GC Overhead/General Conditions & General Requirements ("GCs & GRs")

Place "X" in "Cost of Work" column if item is to be assigned to direct work/trade costs, OR place "X" in "CM/GCFee" column if item is to be assigned to CM/GC's fee, OR place "X" in "GCs & GR" column if item is to be assigned to CM/GC overhead. If item is not applicable, not required to execute the work, or addressed by other item within this exhibit, place "NA" under the "GCs/GRs" column. If "X" is placed in "GCs & GRs" column, also include the extended value in the "\$ Value of GCs/GRs" column, assuming a 9-month construction phase duration. Any CM/GC required GCs/GRs not listed below are to be included below the item list and above the line titled "Total Value of GCs & GRs". Format and list order of this table is to be retained in proposal response.

and list order of this table is to be retained in p	Cost of Work	GM/GC Fee	GCs & GRs	\$ Value of GCs/GRs

SURVEY		

ALTA/NSPS LAND TITLE SURVEY

OPTIONAL TABLE A ITEM NOTES

- MONUMENTS PLACED (OR A REFERENCE MONUMENT OR WITNESS TO THE CORNER) AT ALL MAJOR CORNERS OF THE BOUNDARY OF THE SURVEYED PROPERTY, UNLESS ALREADY MARKED OR REFERENCED EXISTING MONUMENTS OR WITNESSES IN CLOSE PROXIMITY TO THE CORNER
- ADDRESS(ES) OF THE SURVEYED PROPERTY IF DISCLOSED IN DOCUMENTS PROVIDED TO OR OBTAINED BY THE SURVEYOR, OR OBSERVED WHILE CONDUCTING THE FIELDWORK POSTED ADDRESS: 1185 WEST 124TH AVENUE.
- FLOOD ZONE CLASSIFICATION (WITH PROPER ANNOTATION BASED ON FEDERAL FLOOD INSURANCE RATE MAPS OR THE STATE OR LOCAL FOUNALENT) DEPICTED BY SCALE MAP LOCATION AND GRAPHIC PLOTTING ONLY

BY GRAPHICAL PLOTTING ONLY. THE PROPERTY DESCRIBED ON THIS SURVEY DOES NOT LIE WITHIN A SPECIAL FLOOD HAZARD AREA ("SFHA") AS DEFINED THE FEDERAL EMERGENCY MANAGEMENT AGENCY; THE PROPERTY LIES WITHIN ZONE X OF THE FLOOD INSURANCE RATE MAP IDENTIFIED AS MAP NUMBER 08059C0092G, BEARING AN EFFECTIVE DATE OF JANUARY 20, 2016.

- GROSS LAND AREA (AND OTHER AREAS IF SPECIFIED BY THE CLIENT) SUBJECT PROPERTY CONTAINS: 55,681 SQUARE FEET \ 1.27 ACRES MORE
- VERTICAL RELIEF WITH THE SOURCE OF INFORMATION (F.G., GROLIND SURVEY AERIAL MAP), CONTOUR INTERVAL, DATUM, AND ORIGINATING BENCHMARK IDENTIFIED WHEN APPROPRIATE. SEE SURVEY SHEET 2. 1 FOOT CONTOUR INTERVALS ARE SHOWN HEREON
- EXTERIOR DIMENSIONS OF ALL BUILDINGS AT GROUND LEVEL. SEE SURVEY SHEET 2.
- SUBSTANTIAL FEATURES OBSERVED IN THE PROCESS OF CONDUCTING THE FIELDWORK (IN ADDITION TO THE IMPROVEMENTS AND FEATURES REQUIRED PURSUANT TO SECTION 5 ABOVE) (E.G., PARKING LOTS, BILLBOARDS, SIGNS, SWIMMING POOLS, LANDSCAPED AREAS, SUBSTANTIAL AREAS OF REFUSE). SEE SURVEY SHEET 2.
- NUMBER AND TYPE (E.G., DISABLED, MOTORCYCLE, REGULAR AND OTHER MARKED SPECIALIZED TYPES) OF CLEARLY IDENTIFIED PARKING SPACES ON SURFACE PARKING AREAS, LOTS AND IN PARKING STRUCTURES. STRIPING OF CLEARLY IDENTIFIED PARKING SPACES ON SURFACE PARKING AREAS AND LOTS. THERE ARE 60 PARKING SPACES ON THE SUBJECT PARCEL, 4 OF WHICH ARE DESIGNATED AS HANDICAP. SEE SURVEY SHEET 2.
- EVIDENCE OF UNDERGROUND UTILITIES EXISTING ON OR SERVING THE SURVEYED PROPERTY (IN ADDITION TO THE OBSERVED EVIDENCE OF UTILITIES REQUIRED PURSUANT TO SECTION 5.E.iv. AS DETERMINED BY
 - PLANS AND/OR REPORTS PROVIDED BY CLIENT (WITH REFERENCE AS TO THE SOURCES OF INFORMATION)
 - MARKINGS COORDINATED BY THE SURVEYOR PURSUANT TO A PRIVATE UTILITY LOCATE REQUEST.

THIS IS AN ABOVE-GROUND SURVEY. THE UNDERGROUND UTILITIES SHOWN ARE BASED ON INFORMATION PROVIDED BY OTHERS, ABOVE GROUND EVIDENCE AND MAPS AVAILABLE FROM THE LITTLE LICE THESE LOCATIONS SHOULD BE CONSIDERED APPROXIMATE. THERE MAY BE ADDITIONAL UNDERGROUND UTILITIES NOT SHOWN ON THIS DRAWING. DRY UNDERGROUND LITH ITIES WERE MARKED BY LITH O. L.C.

SCHEDULE B - SECTION 2 EXCEPTION NOTES (PER COMMITMENT NO. NCSC002613-NB)

SCHEDULE B - SECTION 2 EXCEPTIONS, UNDERLINED NUMBERS CORRESPOND WITH EXCEPTION NUMBER AND SURVEYOR'S NOTE CONCERNING EACH EXCEPTION ADDRESSED. ITEMS 1-8 ARE GENERAL EXCEPTIONS AND NOT ASSOCIATED WITH A RECORDED DOCUMENT.

- 9 THE SUBJECT PROPERTY IS AFFECTED BY THE TERMS, CONDITIONS, PROVISIONS. AGREEMENTS AND OBLIGATIONS CONTAINED IN THE MEMORANDUM OF AGREEMENT TO ANNEX RECORDED ON APRIL 3, 1970, IN BOOK 1588 PAGE 389. THE SUBJECT PROPERTY LIES WITHIN PARCEL 4 OF SAID DOCUMENT.
- 10. THE SUBJECT PROPERTY IS AFFECTED BY THE TERMS, CONDITIONS, PROVISIONS, AGREEMENTS AND OBLIGATIONS CONTAINED IN THE HURON STREET WATER AGREEMENT RECORDED ON IIII Y 29, 1971, IN BOOK 1719 PAGE 255 AND BOOK 1719 PAGE 258 THE SUBJECT PARCEL LIES WITHIN THE BOUNDS OF SAID DOCUMENT.

BUILDING CONDITION DOCUMENTATION

Mr. Justin Sager JRS Development Management, LLC 517 Seagaze Dr., Suite 484 Oceanside, CA 92049

RE: Anythink Administration Building (DPA Project #25162.00)
Existing Building Conditions Observation Report

Dear Justin:

The following is an observation report of the existing conditions as identified on our site investigation on October 16, 2025 from 9-10:30am. The building is located at 1185 West 124th Avenue, Westminster, CO. Weather was sunny and with temperatures in the mid-50 to mid-60 degree range. Please note that all observations noted in this report were non-invasive, visual observations only.

The existing building constructed in the year 2000, is a two story, 16,084 sq. ft., fully-sprinklered office building. The building has a brick veneer façade over stud-framed exterior walls, slab-on-grade foundation, and steel structure. The exterior glazing is a dual pane aluminum storefront system. The building is intended to be renovated by Anythink Libraries for purposes of its main Administration facility. It is understood that the renovation will primarily consist of an interior renovation only, with limited alterations to the existing building envelope.

The first and second levels consist of restrooms, break rooms, janitor closets, and offices partitioned by metal stud-framed walls with gypsum wall board on both sides of each wall. Ceiling heights were typically 9 feet tall. It was observed that additional ceiling height may be achieved by utilizing more of the plenum space above the ceiling on the second floor.

The existing roof appears to be a TPO membrane roof (photo 1) in adequate condition. However, if this is the original roof on the building, it may be nearing the end of its life span. Membrane roofs can last 20-40 years with regular maintenance. An area was observed between the front standing seam metal roof and parapet wall where additional sealant was applied (photos 2 & 3), making it appear there may have been an issue with leakage in the past.

The membrane roof is pitched from the center of the building toward the two west and east-facing exterior walls. Four roof drains, two on each side of the building are located adjacent to overflow roof scuppers. There were no signs of any roof drain blockages during our site visit.

The standing seam metal roof appeared to be in adequate condition, however there is an area on the roof where a seam was becoming detached (photo 4). The standing seam metal roof is drained by a gutter and downspout system. No lightning protection system was observed.

Please note that we could not assess thermal performance of existing windows, walls, or roof. However, per IECC section C503 Alterations, we do not believe significant changes to the building envelope will be required by adopted Energy Code requirements.

Please see the following pages for assessments regarding the Mechanical, Plumbing, and Electrical systems.

MECHANICAL AND PLUMBING ASSESSMENT FOR

1185 W. 124th Ave, Westminster, CO

October 16, 2025

The following Mechanical and Plumbing Assessment Report prepared by VH Engineering, LLC is based on a walkthrough of the space on Thursday, October 16, 2025. The outside air temperature at the time of the walkthrough was approximately 25 degrees F.

Mechanical Overview -

There are seven (7) rooftop HVAC units that serve the 1st and 2nd floors of the facility. These units vary in size from 5 tons to 12-1/2 tons and appear to be in poor condition. Per information we received from the local Trane representative, all units are approximately 26 years old. There are two (2) 5-ton units, one (1) 7.5 ton unit, two (2) 8.5-ton units, one (1) 10 ton unit, and one (1) 12.5 ton unit. Per ASHRAE Standards, these rooftop units should have a typical life expectancy of 15 years under normal conditions.

There are six (6) main thermostats located in the northeast corner of the 1st floor in the electrical room that appear to be connected to remote averaging sensors within the occupied areas. The six (6) thermostats are marked to indicate the HVAC unit they are controlling. The seventh thermostat appears to be located in the reception area near the front desk.

The sensors located throughout the building were non-adjustable and appeared to be averaging sensors to maintain a consistent temperature throughout the areas of the building that the rooftop is serving.

There are also three (3) exhaust fans located on the upper roof. There's not a manufacturer's date on the units, but all appear to be good condition. There is one (1) exhaust fan on the lower roof on the east side of the building. The unit is located above the Fire Sprinkler Valve Room and appears to service that room, but we weren't able to access that area to confirm. It was discussed that this exhaust may need to be removed for a new outdoor patio.

The supply and return ductwork associated with the rooftop HVAC units is sheet-metal and did not appear to have any obvious leaks. The ceiling-mounted supply air diffusers were louver-faced and appeared to be in good condition.

There was a noisy fan hanging from the structure in the reception area. The unit was not accessible and we were unable to get any information from the tag. We are unsure what the fan was being used for.

All restrooms and janitor's closets appeared to be served by the roof-mounted exhaust fans.

There is electric baseboard heating (and thermostat) in the northwest corner office, which appears to be in good operating condition.

Plumbing Overview –

The domestic water entry appears to be located on the south side. We assume the backflow preventer is located immediately inside the facility, but were unable to access that area. There is one (1) keyed wall hydrants located on the south side of the building as well.

There are four (4) restrooms, one (1) Men's and one (1) Women's per floor. Water pressure appears to be satisfactory to all fixtures. (Please refer to Architectural section for restroom deficiencies).

There is a mop sink located on the 1st floor and appeared to be another on the 2nd floor, but we were unable to get access to the janitor's closet on the 2nd floor.

There are two (2) break rooms located on the 1st floor. The conference room break area has a double compartment sink and a dishwasher. The other 1st floor break room has a single compartment sink and a dishwasher. The 2nd floor also has a break room with a double compartment sink and dishwasher. We were unable to locate any water heater(s), but would recommend it/they be replaced.

There is a single drinking fountain located in the corridor of the first floor. The local jurisdiction may require high/low drinking fountains be installed.

The existing gas service is located on the south side of the facility. The gas meter is rated for a maximum of 1500 cubic feet per hour. A 3" gas line enters the west side of the building and eventually rises to the roof to serve the rooftop HVAC units. The gas-piping on the roof appears to be supported per code.

Mechanical & Plumbing Summary -

The seven (7) existing rooftop HVAC units are approximately 26 years old and showing signs of rust and deterioration and we would recommend replacing the units along with the controls.

We would recommend replacing the water heater(s).

A new ADA compliant high/low drinking fountain may be required in the future to satisfy the latest code.

Integrated Lighting and Electrical Solutions

OBSERVATION REPORT

То	Davis Partnership Architects 2901 Blake Street, Suite 100 Denver, CO 80205-2849		
Attn	Cynthia Steinbrecher	Project Name	Anythink Libraries Office 1185 @ 124 th Avenue WestminsterCO
CC	Byron Zick	Project #	7110.00
From	Theresa Santos	Observation Date	16 October 2025
On Site		Time In	9:00AM
Contact		Time Out	10:15 AM
Represented		Issue Date	17 October 2025
Companies		Site Visit #	1

Building Description:

Two level building constructed in 2000. The total building is 16,084. The current building codes for Westminster are the 2023 NEC, the 2021 IECC, and 2021 IFC.

Electrical Sei	Electrical Service					
Services	EXISTING CONDITIONS	COMMENTS				
Main Electrical Service	 A pad mounted Xcel Energy utility transformer is located exterior, northeast corner of the building. a. The utility transformer is rated 150kVA, 120/208V, 3Phase The main electrical service is rated 800A 120/208V, 3Ph. The main switch gear is located in the main electrical room and consists of an 800A main switch with several switches feeding various panel boards and equipment throughout the facility. A life safety generator is not present at the building. 	 The existing electrical service provide ~18W/SF of electrical capacity. We anticipate this to be sufficient for an office environment. No recommendation to modify or increase the electrical service. The age of the electrical equipment is still within its useful life expectancy. Existing feeder breakers can be reused as necessary, and new parts are readily accessible. 				
Fire Alarm	 The existing fire alarm panel is an analog system. The system appears to provide sprinkler monitoring, manual pull stations, and horn/strobe notification throughout. 	 The fire alarm system is sufficient for a Group B occupancy with less than 500 occupants. It s recommended that the system is tested and serviced. 				
Telephone Service	 The incoming telephone service demark is located in the main electrical room. This 	 CATV service may need to be provided if desired. 				

Electrical Se		
	service appears to be copper and fiber. CATV services were not observed.	
IT Equipment	 A server rack exists on the 1st floor main electrical room and the 2nd floor electrical room. Low voltage cabling is fed from the 1st floor electrical room to the 2nd floor electrical room. 	 The existing racks and pathway can be reused. Additional racks can be added at the 2nd floor electrical closet if needed.
Elevator	 20 HP elevator fed from the main switch gear with a 200A switch. Elevator machine room is adjacent to the elevator. 	 Equipment appears to be original to the building but appears to be in condition and has been serviced regularly. It is recommended that the equipment be serviced.
Service Distribution	 (2) 42-circuit panelboards are located in the main electrical. Panel "A" and Panel "B". Each panel is fed from a 200A switch in the main switch gear. 1st floor power is fed to the these panels. (3) 42-circuit panelboards are located on the 2nd floor electrical room. Panel "C", Panel "D", and Panel "M". Panels "C" and "D" are each fed from a 200A switch in the main switch gear and feed electrical loads on the 2nd floor. Panel "M" is fed from a 400A switch in the main switchgear and feeds the mechanical equipment. 	All branch circuit panels appear to be in good condition and are suitable to continue use.
Lighting and Lighting Controls	 Existing lighting consists of recessed 2x4 lay-in fluorescent fixtures, incandescent and fluorescent decorative sconces and surface mounted fixtures. All luminaires are controlled locally by manual toggle switches. Emergency egress lighting and exit signs are provided throughout with unit battery back-up. 	 All luminaires do not comply with current energy codes and will need to be replaced if the interior spaces are reconfigured or new lighting is added. All lighting controls will need to be replaced in order to comply with current code: occupancy sensors, daylight sensors, zoned lighting control, dimmable fixtures. If existing egress lighting is to be reused, battery testing is recommended. The age of the batteries is unknown and life expectancy may be exceeded. If egress lighting will be replaced, it is recommended that emergency lighting shall be individually equipped with

Electrical Service		
		90 minute batteries or an inverter be installed to connect all egress lighting to a central back up system.
Exterior	 Exterior lighting consisted of: Pole mounted metal halide area lights in the front parking area Building mounted area lights. 	Fixture replacements could be considered for energy efficiency and better lighting quality.

RE: Admin Building Existing Conditions Report

From Byron Zick < Byron.Zick@davispartnership.com>

Date Wed 10/22/2025 9:50 AM

To Justin Sager < jsager@jrsdm.com>

Cc Brian Majerus <Brian.Majerus@davispartnership.com>

1 attachment (6 MB)

IMG 5433.JPG;

Morning Justin,

One additional update to note on the existing conditions report we sent on Friday is that we believe the existing roof is actually an EPDM roof, with a more recent liquid-applied coating. It doesn't really change our judgment that the roof is nearing its end of life, but wanted to point that out.

I've attached an image that illustrates this pretty well. If you'd like us to amend the report, we'd be happy to do that.

Subject: Admin Building Existing Conditions Report

Afternoon Justin,

Please see attached for our existing conditions report for the Anythink Admin building. We were able to observe and provide findings on Architectural, Mechanical, Plumbing, Electrical, and Fire Alarm systems. As you'll notice, our key considerations include:

- Existing rooftop mechanical units are nearing end-of-life.
- Existing roofing appears to be in good condition but may be nearing end-of-life. We cannot say for certain.
- Please note that we were not able to gain access to the Fire Sprinkler Valve room, as noted in the mechanical/plumbing report.

If you have any questions, please feel free to reach out. Have a great weekend!

Byron Zick AIA, LEED AP Senior Associate 303 861 8555 Office 303 308 2578 Direct 214 530 1159 Mobile

Executive Summary of Findings - Recommendations - Conclusions

October 8, 2025

1. Client Information

Environmental Property Investigations, Inc. has been retained to conduct an Environmental Phase One report for the property identified with the situs address of 1185 W. 124th Ave., Westminster, CO 80234, Adams County. The site is generally located at the lat/long coordinates of Latitude (North): 39.9226580 / Longitude (West): 105.0013150.

This report is provided to Anythink Libraries, C/O Mike Fink and Justin Sager, 1185 E. 120th Ave., Thornton, CO 80602.. No reliance beyond this named party is granted or conveyed without the specific written permission of Anythink Libraries and EPI, Inc.

1a. Limitations

The property was inspected during daylight hours on October 2, 2025. The weather was clear and dry. There was no impediment to the visual inspection of the subject property. This report is limited to the property located at 1185 W. 124th Ave., Westminster, CO 80234.

2. Purpose of Site Assessment

This assessment is in compliance with the ASTM standard E-1527-21 and is used to determine the <u>recognized environmental conditions</u> that would indicate past or current violations of State or Federal regulations that pertain to CERCLA liability. Additional non-scope items such as suspected asbestos-containing materials are summarized within the field summary sheets and report body. Although no environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with the property, activities conducted within the scope of this assessment are intended to reduce, but not totally eliminate uncertainty regarding the potential for such environmental conditions in connection with the property of interest recognizing reasonable limits of time and cost. ASTM Practice E-1527-21 is site-specific in that it relates to the assessment of environmental conditions on a specific property. Consequently, the practice does not address many additional issues often raised in commercial real estate transactions such as the purchase of business entities, or interest therein, or of their assets, that may involve environmental liabilities pertaining to properties previously owned or operated, or other off-site environmental liabilities.

3. Scope of Services

This assessment is in compliance with the ASTM standard E-1527-21 and is used to determine the recognized environmental conditions that would indicate past or current violations of State or Federal regulations that pertain to CERCLA liability. To complete the assessment, EPI conducted the following tasks:

- 1. Reviewed historical Site use to 1940, or the earliest developed date (when historical resources were readily available);
- 2. Interviewed Site representatives and occupants regarding current Site operations and past Site uses;
- 3. Reviewed an ASTM one-mile radius search of State and Federal databases;

Environmental Science, Geology, Engineering

- 4. Reviewed records currently on file with Federal, State and Local regulatory Agencies:
- 5. Conducted an on-Site inspection of the Property;
- 6. Obtained current photographs of the Site, including Recognized Environmental Conditions
- 7. Conducted an off-site inspection of adjacent and near-by properties with the potential to impact the Site;
- 8. Inspected the Site for non-scope Recognized Environmental Conditions (if any); and,
- 9. Limited environmental lien research

4. User Provided Information

- 4a. Title records Adams County Assessor
- 4b. Environmental Liens none
- 4c. Specialized Knowledge None
- 4d. Owner, Occupant, Manager none

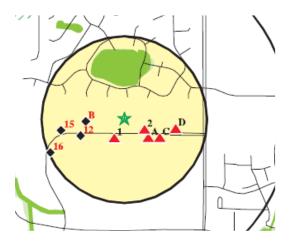

5. Physical Location and Property Description/Site Inspection and observations

The property is situated in north central Westminster along the W. 124th Ave. commercial corridor. The subject property consists of a two-story commercial office building and paved perimeter parking areas. The perimeter extends to the street curb and gutter on the west and south sides of the building. There were no stains or spills noted in the parking area that would have any environmental impact on the property. The building was constructed in 2000 on a previously vacant lot according to records obtained from the Adams County Assessor's office. The building is constructed with brick façade and steel frame. The interior is tenant-finished with painted drywall interior, suspended acoustic ceiling tiles, tile and carpet flooring, wood trim, and office furnishings. Based on the age of the building, it is possible that some asbestos-containing building materials were used in the construction. These materials would include drywall, tape and texture, adhesives, mastic, floor tiles, thermal system insulation, and miscellaneous materials. There are no pits, ponds, or lagoons associated with the property. EPI could determine no recognized environmental conditions (RECs) at the site. There are no historic RECs that EPI could identify. No additional site investigation appears warranted.

6. Environmental Setting

The property is located in north central Westminster, an urban community in the north metropolitan area of Denver. The subject site is NOT listed in the EDR-compiled one-mile search radius report.

The property resides in an area where there is are two (2) CORRACTS sites, and three (3) RCRA small quantity generators in the one-mile search radius. These sites reside in all directions from the subject property. There are no listed PFAS sites in the one-mile search radius.

Environmental Science, Geology, Engineering

6a. Topography

The property is located on the Lafayette, Colorado 7.5 minute Quadrangle Map (USGS, 1965 photo revised in 2022). Based on review of the map, it appears that the area of the site slopes gently to the north / northeast. The site is at approximately 5280 feet in elevation.

6b. Geology

Review of the Geologic Map of the Colorado Basin, published by the USGS and dated 1974, indicated that the property is located along the Rocky Mountain Front Range physiographic province of North America. In the area of the subject site, near-surface geology is reported to consist of sandy alluvial deposits underlain by the Denver Blue shale layers overlying deep aquifers. The Denver Blue layer is an unweathered shale that is confining. This layer is expected at 45 feet bgs. Surface soils from native formations include Quaternary eolian deposits (Qe) over shallow bedrock outcrops.

6c. Hydrology

Review of the Water Resources Data Report published by the Colorado Department of Water Resources and dated 1997, indicates that first groundwater beneath the subject site is located in an unnamed, perched aquifer formation with depths of approximately 25 to 45 feet below ground surface (bgs). Shallow groundwater flow is expected to follow the ground level slope of surface elevations towards the nearest dominant open body of water or intermittent stream to the north / northeast.

7. Historical Occupancy and Past Uses

Historical occupancy was determined through review of historical city directories, historical aerial photographs, historical Sanborn Fire Insurance Maps, and Adams County assessor's records. The site is listed as the Parcel No. 0157134001005 in the Adams County Assessor records. The site is identified as a commercial office space. Properties to the north, west, south, and east are reported as light commercial properties.

7a. Aerial Photography and Sanborn Maps

Low-level aerial photography exists for the area of the property for the years 1993- 2022 (Google Earth/Adams County / USDA). Based on review of the available low-altitude aerial photographs, it appears that the site has existed as a rectangular commercial building from development in 2000. No spills or stains are noted in these images. No indications of spills, stains, dumping, or other possible impacts are noted in the aerial photos. Sanborn Map Coverage is NOT available for the area of the subject property.

7b. Database Review

The subject site is NOT listed in the EDR compiled one-mile search radius report.

The property resides in an area where there is are two (2) CORRACTS sites, and three (3) RCRA small quantity generators in the one-mile search radius. These sites reside in all directions from the subject property. There are no listed PFAS sites in the one-mile search radius. No additional investigation of these sites is required.

Environmental Science, Geology, Engineering

8. Adjacent Property Identification

The property is bound to the north by a residential area (down-gradient). The property is bound to the west by a commercial office building (cross-gradient). The property area to the east consists of an office building (cross-gradient). The property area to the south is an office park across W. 124th Ave. (up-gradient). None of the adjacent properties appear to pose an environmental risk to the subject site.

9. Summary of Non-Scope Issues

There are NO non-scope issues that were apparent during the site inspection. Based on the age of the building it is possible that some asbestos-containing building materials were used in the construction. Thus, prior to any renovation or demolition, a full inspection would be required.

10. Soil Vapor Intrusion or Indoor Air Impacts

EPI senior personnel have concluded that NO soil vapor to indoor impact would be observed at the site. Localized groundwater plumes and impacts are known in the area to the adjacent east, west, and south. A standard VISL review was conducted and is appended herein for reference. As part of the normal due diligence provided by EPI in these reports is a review of possible soil vapor to indoor air impacts. EPI conducted a preliminary vapor encroachment screen (pVES) for potential chemicals of concern (COCs) that may migrate as vapors onto the site as a result of contaminated soil and/or groundwater near the site. The purpose of the pVES is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of COC vapors in subsurface soils at the site caused by the release of vapors from contaminated soil or groundwater either on or near the site. The potential for VEC beneath the site was evaluated using a Vapor Encroachment Screening Matrix (VESM). The VESM included performing a Search Distance Test to identify if there are any known or suspect contaminated sites surrounding or upgradient of the site within specific search radii, a COC Test (for those known or suspect contaminated sites identified within the Search Distance Test) to evaluate whether or not COCs are likely to be present, and a Critical Distance Test to evaluate whether or not COCs in a contaminated plume may be within the critical distance of the site (100 feet for non-petroleum contaminants, and 30 feet for petroleum hydrocarbon contaminants). Based on the results of the VESM, it is likely that NO VEC currently exists beneath the site.

Environmental Science, Geology, Engineering

11. PFAS / PFOS Analysis Summary

On March 1, 2024 the US. Environmental Protection Agency (EPA) officially promulgated the regulation of perfluoroalkyl substances / polyfluorinated alkyl substances and perfluorooctane sulfonic acid (PFOS) in drinking water and groundwater. Per- and polyfluoroalkyl substances (PFAS) are a group of synthetic chemicals that have been in use since the 1940s. PFAS are found in a wide array of consumer and industrial products. PFAS manufacturing and processing facilities, facilities using PFAS in production of other goods, airports, and military installations are some of the contributors of PFAS releases into the air, soil, and water. Due to their widespread use and persistence in the environment, most people in the United States have been exposed to PFAS. There is evidence that continued exposure above specific levels to certain PFAS may lead to adverse health effects. The U.S. Environmental Protection Agency (EPA) will continue to partner with other federal agencies, states, tribes, and local communities to protect human health and, where necessary and appropriate, to limit human exposure to potentially harmful levels of PFAS in the environment. EPA's methods for analyzing PFAS in environmental media are in various stages of development and validation. The Agency is working to develop validated analytical methods for groundwater, surface water, wastewater, and solids, including soils, sediments, biota, and biosolids. The Safe Drinking Water Act (SDWA), as amended in 1996, requires the Administrator of the U.S. Environmental Protection Agency (EPA) to establish a list of unregulated microbiological and chemical contaminants known or anticipated to occur in public water systems and that might require control in the future through national primary drinking water regulations. The SDWA also requires the Agency to make regulatory determinations on at least five contaminants on the Contaminant Candidate List (CCL) every 5 years. For each contaminant on the CCL, before EPA makes a regulatory determination, the Agency needs to obtain sufficient data to conduct analyses on the extent to which the contaminant occurs and the risk it poses to populations via drinking water. Ultimately, this information will assist the Agency in determining the most appropriate course of action in relation to the contaminant (e.g., developing a regulation to control it in drinking water, developing guidance, or deciding not to regulate it). The PFOS health assessment was initiated by the Office of Water, Office of Science and Technology in 2009. The draft Health Effects Support Document for Perfluorooctane Sulfonate Acid (PFOS) was completed in 2013 and released for public comment in February 2014.

PFAS are man-made chemicals that have been used in industry and consumer products worldwide since the 1940s. They have been used to make nonstick cookware, water-repellent clothing, stain resistant fabrics and carpets, some cosmetics, some firefighting foams, and products that resist grease, water, and oil.

The most commonly studied PFAS are perfluorooctanoic acid (PFOA) and perfluorooctane sulfonic acid (PFOS). The next most commonly studied are perfluorohexane sulfonic acid (PFHxS), and perfluorononanoic acid (PFNA). PFOA and PFOS have been phased out of production and use in the United States, but other countries may still manufacture and use them.

Due to their unique chemical properties, various PFAS can lower surface tension (act as surfactants), are oil-repelling (oleophobic), and are water-repelling (hydrophobic), yet are also relatively water soluble. They have been used extensively in many industries worldwide for a wide variety of applications. PFAS were first invented in the late 1930's and commercially used from the 1940's as non-stick coatings. PFAS continued to be used in many industries and various products as more PFAS were developed with unique chemical properties. Some of the documented PFAS uses are in hydraulic fluids, biocides, construction products, fire-fighting foams, household products, wetting and mist suppressing agents, surfactants for oil and natural gas recovery enhancement, polymerization agents, low-friction bearings and seals, insulators, cables, wires, protective coatings for a wide variety of materials, nonstick coatings, surgical patches, cardiovascular grafts, implants, oil and water repellent coatings for a wide range of materials such as paper and cardboard

Environmental Science, Geology, Engineering

packaging products, carpets, leather products, and textiles (OECD, 2013). The presence of PFAS in these materials is a potential source of environmental concern and cross-contamination.

During production and use, PFAS can migrate into the soil, water, and air. Most PFAS (including PFOA and PFOS) do not break down, so they remain in the environment. Because of their widespread use and their persistence in the environment, PFAS are found in the blood of people and animals all over the world and are present at low levels in a variety of food products and in the environment. Some PFAS can build up in people and animals with repeated exposure over time.

Exposure to PFAS

- Drinking contaminated municipal water or private well water
- Eating food grown or raised near places that used or made PFAS
- Eating fish caught from water contaminated by PFAS (PFOS, in particular)
- Accidentally swallowing contaminated soil or dust
- Eating food packaged in material that contains PFAS
- Accidentally swallowing residue or dust from PFAS-containing consumer products such as stain resistant carpeting and water repellent clothing.

Based on the ubiquitous use and distribution of these chemicals, it is virtually impossible to eliminate exposure. EPI has evaluated the possible exposure (dermal / inhalation / ingestion) to these chemicals and the possibility that the subject site has extensively used, manufactured, stored, or otherwise contributed to a release to soil, groundwater, or air. Based on the known uses of the subject property, EPI concludes that NO PFAS impacts at the site are likely. No additional investigation of PFAS at the property appears warranted.

12. Data Gaps

EPI has documented the site in available City Directories, aerial photography, and Adams County Assessor's records and thus has concluded that no data-gap exists that would change the conclusions or recommendations of this report.

13. Interviews

EPI did NOT receive communications from persons with knowledge regarding the current and historic uses of the property.

14. Conclusions

Recognized Environmental Conditions (REC) and Historic Recognized Environmental Conditions (HREC) do not exist at the site. No spills or stains were noted at the site.

15. Recommendations

It is EPI's opinion that NO additional investigation of the property is recommended.

Environmental Science, Geology, Engineering Signature and Declarations

Environmental Property Investigations, Inc. senior personnel have completed the due diligence report according to the requirements of the ASTM E-1527-21 guidance document. EPI, Inc., EPI personnel, employees, or otherwise have no financial interest in the property of the transaction. This report, and its compiled contents, completes the environmental site assessment with no amendments or alterations from what is stated and reported herein.

I declare that, to the best of my professional knowledge and belief, I meet the definition of an Environmental Professional as defined in §3 12.10 of 40 CFR Part 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EPI has performed a Phase One Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 for the property located at the industrial shop building identified with the situs address of 1185 W. 124th Ave., Westminster, CO 80234.

Any exceptions to, or deletions from, this practice are described in section 1.0a of this report. The assessment has revealed NO evidence of *recognized environmental conditions* in connection with the property at this time.

Ronald G. West

Tomal & West

President / Sr. Environmental Scientist

Appendix 1 Field Inspection Summary Forms

Environmental Science, Geology, Engineering

1.0 SITE ADDRESS/LEGAL DESCRIPTION

Street Address	1185 W. 124 th Ave.
City, State, ZIP Code	Westminster, CO 80234
County	Adams County
Lot, Block, Subdivision	As appended
Parcel Number	As appended

2.0 EXISTING SITE IMPROVEMENTS

(Buildings, Paving, Parking Areas, Fencing, Drainage Systems, Water Bodies, Power Lines, Total Acreage, etc.)

Two-story commercial office building on 1.28 acre lot	

3.0 EXISTING SITE TOPOGRAPHY

Direction of topographic gradient:	N/NE
Direction of ground surface flow (storm water):	N/NE
On-site/Adjacent streams, creeks, lakes, etc.:	none
Other	

4.0 SITE OPERATIONS

4.1 GENERAL DESCRIPTION OF SITE OPERATIONS

- 1	W O-SLOT V	commercial	OHICC	oun	ume

4.2 SPECIFIC SITE OPERATIONS OF CONCERN

		DESCRIPTION
Landfill	No	
Waste Treatment Facility	No	
Waste Incineration	No	
Recycling Facility	No	
Junk Yard/Scrap Yard	No	
Gasoline Station	No	
Motor Vehicle Repair Facility	No	
Machine Shop	No	
Airport	No	
Railroad Yard/Railroad Spur	No	
Freight Terminal	No	
Power Plant	No	

Asphalt/Cement Plant	No No	
Oil & Gas Production or Refining	No	
Mining Facility	No	
Foundry/Casting operation	No	
Pesticide Manufacturing or Storage	No	
Chemical Manufacturing or Treatment	No	
Metal Plating or Finishing	No	
Metal Fabrication or Production	No	
Textile Manufacturing	No	
Wood Preservation or Finishing	No	
Paper Manufacturing	No	
Printing Industries	No	
Pharmaceutical Production	No	
Plastic Fabrication or Manufacturing	No	
Livestock Feed or Finishing Lot	No	
Agricultural Production	No	
Explosives Manufacturing	No	
Dry Cleaning Facilities	No	
Ink, Dye or Paint Manufacturing	No	
Photochemical Laboratories	No	
Analytical Laboratories	No	
Fertilizer Manufacturing	No	
(Compost Activities) Hazardous Waste TSD Facility	No	

5.0 DESCRIPTION OF EXISTING SITE UTILITIES

			DESCRIPTION
Municipal Water System	Yes		
Municipal Sewer System	Yes

NON-SCOPE ISSUES CHECKLIST

1.0 ASBESTOS

SUSPECT MATERIALS			DESCRIPTION
			(Location, appearance, condition, age)
Suspended Ceiling Tiles	Yes		
Glued-on Ceiling Tiles		No	
Acoustical "Popcorn" Texture Material		No	
Vinyl Floor Tiles/Mastic		No	
Sheet Linoleum/Mastic		No	
Thermal Insulation/Pipe wrap		No	
Sprayed –on Structural Fireproofing		No	
Transite Siding		No	
Other			
Recommendation for Additional Asbestos Investigation	1?		Yes
Description of Concern/Reason for Opinion: renovation	or TI will red	quire a complete	e ACBM inspection

2.0 RADON

Is the site located in an area of increased radon levels?	No
Have increased radon levels been specifically identified at the site?	No
If the site is located in an area of increased radon levels, are the site building(s) occupied for more than 12 hours per day?	No
Recommendation for Additional Radon Investigation?	No
Description of Concern/Reason for Opinion – None noted	•

4.0 LEAD-BASED PAINT

Are the painted surfaces at the site (if any) in bad condition, with significant peeling, chipping or cracking?	No
Are the painted surfaces at the site (if any) older than 1979?	No
Are the structures at the site subject to HUD Title X reporting?	No
Are any records relating to the HUD Title X reporting available for review?	No
Recommendation for Additional Lead-Based Paint Investigation?	No
Description of Concern/Reason for Opinion: recent renovation	

Environmental Science, Geology, Engineering

5.0 LEAD IN DRINKING WATER/WATER QUALITY

Based on age and construction, are soldered joints probable in the site structure(s)?	No
	7.7
If serviced by a municipal water supply, are there any records indicating increased levels of organic	No
or inorganic contaminants?	
If serviced by a private water well, are there any records indicating increased levels of organic or	No
inorganic contaminants?	
If serviced by a private water well, are there any records indicating the well is out of compliance	No
with existing testing and permitting requirements?	
Recommendation for Additional Lead In Drinking Water/ Water Quality Investigation?	No
Description of Concern/Reason for Opinion : No issues	

6.0 DESIGNATED WETLANDS/POTENTIAL WETLANDS

Does the site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that would currently be described as a wetland?	No
Does the site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that are currently dry but that could have been described as a wetlands in the past?	No
Has the United States Army Corp of Engineers identified any portion of the site as a wetland?	No
Does an adjoining site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that would currently be described as a wetlands?	No
Does an adjoining site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that are currently dry but that could have been described as wetlands in the past?	No
Has the US Army Corp of Engineers identified any portion of an adjoining site as a wetlands?	No
Recommendation for Additional Wetlands Investigation?	No
No issues	l

7.0 ENDANGERED AND THREATENED SPECIES

Has the United States Fish and Wildlife Service identified any endangered species on the subject site?	No
Has the United States Fish and Wildlife Service identified any threatened species on a site located adjacent to the subject property?	No
Recommendation for Additional Endangered or Threatened Species Investigation?	No
Description of Concern/Reason for Opinion: None known	

8.0 REGULATORY COMPLIANCE

Is there evidence to suggest that the site may be in violation of Federal, State or Municipal environmental regulatory obligations?	No
Does the regulatory database indicate that the site is in violation of any Federal, State or Municipal environmental regulations?	No
Recommendation for Additional Regulatory Compliance Investigation?	No
Description of Concern/Reason for Opinion: no requirements	

Environmental Science, Geology, Engineering

9.0 INDOOR AIR QUALITY

Is there evidence to suggest that the site may be in violation of any State, Federal or Municipal air emissions permit(s)?	No	
Are any unusual fumes, odors or vapors present?	No	
If any unusual fumes, odors or vapors are present, is the site used for residential purposes?	No	
Recommendation for Additional Indoor Air Quality Investigation?	No	
Description of Concern/Reason for Opinion: No issues		

10.0 CULTURAL, ECOLOGICAL AND ARCHEOLOGICAL RESOURCES

Has any portion of the site been identified on the National Historic Register?	No
Given the historical use and/or architectural history of the site, is it likely that the site would be considered for listing on the National Historic Register?	No
Could natural features at the site (if any) be considered a unique ecological resource of importance to Federal, State or Municipal agencies? (i.e., unique ecological features that may be important to protect from development)	No
Is the site located within American Indian Tribal Lands?	No
Was any evidence of American Indian burial mounds, pottery shards, or other archeological artifacts noted?	No
Recommendation for Additional Cultural, Ecological or Archeological Resource Investigation?	No
Description of Concern/Reason for Opinion: No issues	I

11.0 HIGH-VOLTAGE POWER LINES/POWER SUBSTATIONS

Are high-voltage power lines located on or near the site?	No
Are electrical substations located on or near the site?	No
Has the site reported any unusual static charges or significantly higher electro-magnetic forces?	No
Recommendation for Additional High-Voltage Power Lines or Electrical Substation Investigation?	No
Description of Concern/Reason for Opinion: No issues	

12.0 MOLD

Any visual indications of mold	No
Any water or other concerns related to possible mold growth	No
Recommendation for Additional Mold Investigation?	No
Description of Concern/Reason for Opinion: Not inspected	

13.0 METHAMPHETAMINE LABORATORIES

Recommendation for Additional Methamphetamine Investigation?		No
Description of Concern/Reason for Opinion:		
Name metad		
None noted	_	
14.0 MISCELLANEOUS		
Recommendation for Additional Investigation?		No
Description of Concern/Reason for Opinion: None noted		
Description of Concentracason for Opinion. Note noted

Ronald West Professional Biography

Mr. West is a graduate of Mesa State College (Asc. Chemistry) and Colorado State University (BSc. Microbiology and Chemistry, Environmental Toxicology, and Doctoral Candidate Microbiology / Biochemistry). Upon completion he was employed by the University Health Science Center as the principal investigator for a project to recertify the use of chlorine for the disinfection of water and wastewater. The project was for the USEPA-EMSL Cincinnati labs, the Colorado Department of Health, Metro-Denver Waste Water, and the Denver Water Department. Upon completion of this investigation Mr. West was employed as an analytical chemist at Metro-Denver Waste Water District. Mr. West entered the private sector of the environmental market as a Senior applications specialist and Regional Manager for companies involved in the analytical testing of inorganic and organic pollutants in water, waste water and soils. This included plant process streams and effluent monitoring events in conjunction with NPL and CERCLIS sites.

Mr. West has provided consulting services to over 1100 companies in the United States, Canada, and Mexico in the past 20 years. These companies have been involved in the chemical, petrochemical, pharmaceutical, food, mining, biotech, rubber industry, Real Estate, Banking, and Investment companies. These projects included the writing of standard operating procedures for world-wide operations, method development, and guidance with respect to SDWA, RCRA, CERCLA, NIOSH, and CLP methods. Mr. West is involved in the daily operations of the company in reviewing all technical papers, remediation projects, and daily activities of the professional staff. Mr. West has performed over 3500 Phase One site investigations on properties located across the country. Mr. West has also performed over 1000 Phase II surface and sub-surface investigations nationally. Mr. West has been involved in the remediation and closure of over 100 sites across the country.

Mr. West is OSHA 40 Hour certified, is a licensed asbestos inspector in the State of Colorado, is a certified AHERA inspector, and is the EPI Corporate Health and Safety Officer. Mr. West is a member of the American Chemical Society, American Society of Microbiology, American Society of Testing and Materials, American Foundrymen's Society, Clandestine Laboratory Investigators Association, and the National Academy of Environmental Toxicologists and Chemists, and the American Society of Environmental Consultants. Mr. West has also served on numerous ASTM methods committees.

Appendix 4 Terms and definitions

Actual Knowledge: The knowledge actually possessed by an individual who is a real person, rather than an entity.

Adjoining Properties: Any real property or properties the border of which is contiguous or partially contiguous with that of the subject property, or that would be contiguous or partially contiguous with that of the subject property but for a street, road, or other public thoroughfare separating them.

All Appropriate Inquiry: That inquiry constituting "all appropriate inquiry into previous ownership and uses of the subject property consistent with good commercial or customary practice", as defined in CERCLA, 42 U.S.C 9607 (b)(3), 9607 (q); and 9607 (r), assuming compliance with other elements of the defense.

Activity and Use Limitation (AUL): Legal or physical restrictions or limitations on the use of, or access to, a site or facility: (1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, and/or surface water on the property, or (2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment.

Business Environmental Risk: A risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in the E 1527-13 practice. Considerations of business environmental risk may involve addressing one or more non-scope considerations.

Controlled Recognized Environmental Condition: A REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

Data Failure: A failure to achieve the historical research objectives of ASTM 1527-13 even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. Data failure is one type of data gap.

Data Gap: A lack of or inability to obtain information required by ASTM 1527-13 despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by the ASTM 1527-13, including, but not limited to, site reconnaissance (for example, an inability to conduct the subject property visit) and interviews (for example, an inability to interview the key subject property manager, regulatory officials, etc.).

Due Diligence: The process of inquiring into the environmental characteristics of a parcel of commercial real estate or other conditions, usually in connection with a property transaction.

Environmental Professional: A person meeting the education, training and experience requirements, as set forth in the ASTM E 1527-13 practice.

Hazardous Substance: A substance defined as a hazardous substance pursuant to CERCLA 42 USC 9601(14), as interpreted by USEPA regulations and the courts.

Historical Recognized Environmental Condition: A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls). Before calling the past release and HREC, the EP must determine whether the past release is a REC at the time the Phase I ESA is conducted (e.g., if there has been a change in the regulatory criteria). If the EP considers this past release to be a REC at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a REC.

Migrate/ Migration: Refers to the movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface.

Obvious: That which is plain or evident; a condition or fact that could not be ignored or overlooked by a reasonable observer while visually or physically observing the subject property.

Occupants: Those tenants, subtenants, or other persons or entities using the subject property or a portion of the subject property.

Owner: Generally the fee owner of record of the subject property.

Practically Reviewable: Information that is practically reviewable means that the information is provided by the source in a manner and in a form that, upon examination, yields information relevant to the subject property without the need for extraordinary analysis of irrelevant data.

Reasonable Ascertainable: Information that is (1) publicly available, (2) obtainable from its source within reasonable time and cost constraints, and (3) practically reviewable.

Recognized Environmental Conditions: The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

Subject Property: The real property that is the subject of this ESA.

User: The party seeking to use Practice E 1527-13 to perform an environmental site assessment of the subject property.

Limitations and Exceptions of Assessment

Although no environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with the property, activities conducted within the scope of this assessment are intended to reduce, but not totally eliminate uncertainty regarding the potential for such environmental conditions in connection with the property of interest recognizing reasonable limits of time and cost. ASTM Practice E-1527-13 is site-specific in that it relates to the assessment of environmental conditions on a specific property. Consequently, the practice does not address many additional issues often raised in commercial real estate transactions such as the purchase of business entities, or interest therein, or of their assets, that may involve environmental liabilities pertaining to properties previously owned or operated, or other off-site environmental liabilities.

This report has been prepared for the exclusive use of Client, and should not be reproduced or disseminated without the written approval of EPI, Inc. and the Client. EPI, Inc. has retained a copy of this report. No additions or deletions are permitted without the express written consent of EPI, Inc. Use of this report in whole or in part by parties other than the Client is prohibited. Information obtained from public records review, the site inspection, and interviews were used to characterize the subject property. Although the services provided are extensive, findings and conclusions are limited to and by the information obtained. If information becomes available concerning the subject property that was not included in this report, it should be made available to EPI, Inc. so that the conclusions and/or recommendations can be re-examined and modified, if applicable. Further non-intrusive and intrusive investigations and assessment methods are available that could further characterize the subject property's soil and ground water conditions. The Site Plan is a sketch of the subject property, which identifies observations of characteristics of the subject property, of significance, at the time of the inspection of the subject property. These plans are not drawn to scale and should not be relied upon as an engineering plan.

EPI, Inc.'s interviews are limited by the quality and completeness of answers provided to the proposed questions during the interview(s). The extent of historical research performed by EPI, Inc. is limited to availability, cost, and timeliness of utilizing various resources such as aerial photographs, historical Sanborn Maps, Land Evidence Records (deeds pertaining to historical site ownership), and local directories, all of which may indicate the historical utilization of the subject property. It should be noted that while the chain-of-ownership research and information provided should be accurate, it should in no way be construed as an actual Title search and should not be utilized or relied upon for any legal purposes. Events occurring on the subject property after the date of the inspection are beyond the scope of this report. EPI, Inc. makes no expressed or implied representations or warranties regarding any changes in condition of the premises after this date.

Limiting Conditions and Methodology Used

The major activities conducted during the ESA included a review of reasonably ascertainable records from standard sources; site reconnaissance including a visit to the site and surrounding properties; interviewing of state and local government officials, and other persons with knowledge of past or present site conditions; and data evaluation and report preparation. All visual and physical observations made of the property of interest to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles, as well as evaluations made as a result of such observations, are discussed under the appropriate headings comprising this report. Reasonably ascertainable title information, municipal and agency data have been researched and are archived for future reference.

Statement of Conditions and Methodology Used

The assessor(s) conducted this Phase I ESA in conformance with the scope and limitations of ASTM Practice E-1527-13. The assessor(s) assume no responsibility for legal actions affecting the property or title to the property. The assessor(s) are not required, and have no obligation to appear in court as a result of their assessment of the property of interest. The assessor(s) accept no responsibility to any party for harm or damage incurred as a result of the findings stated herein. The assessor(s) assume no apparent or latent conditions or hidden defects on or in the property of interest's subsoil, groundwater, structure(s) or surrounding properties other than those noted in the report. The assessor(s) assume no responsibility for the cost or performance of maintenance, repair, revisions, additional assessments or other professional services related to the property of interest as a result of the client's decision to correct factors discussed in this report as current or potential environmental liabilities.

The conclusions presented in this Phase I ESA report are based only on observations made during the assessment and on historical and analytical data provided by others. Thus, the accuracy of the conclusions drawn is inherently based on the accuracy of the information provided although it is believed by the assessor(s) to be reliable, true and correct to the best of their knowledge. This report implies no opinions, guarantees or warranties regarding the commercial or other value of the property of interest or its suitability or use for any purpose. The assessor(s) who conducted this Phase I ESA have inspected the parcel(s) and the structure(s) comprising the property of interest by reasonably available means of access. No effort was made to remove the soil, water, structures, walls, furniture or fixtures to facilitate the assessment. Adjoining and neighboring properties were inspected as permitted by reasonable physical and/or visual access. The assessor(s) who conducted this Phase I ESA and prepared this report have made a diligent effort to describe any limiting or contingent factors imposed by the property or the client as they might affect conclusions found herein. Further, the assessor(s) agree that the conclusions expressed are pertinent and appropriate to the property. This Phase I ESA report may not be used wholly or in part as an enhancement for sales, advertising, public relations or in any media form without prior written consent of the assessor(s). The assessor(s) take no responsibility for changes made to this Phase I Environmental Site Assessment (ESA) report after its delivery to the client or the client's designated representative(s) unless authorized and conducted by the assessor(s). Any such changes will render the report invalid.

Appendix 6 Vapor Encroachment Screening Matrix

Phase I ESA Vapor Encroachment Conditions (VEC) matrix includes a (1) Search Radius Test, (2) Chemicals of Concern Test (COC), and (3) a Critical Distance Test [1].

- (1) Search Radius Test: Are there any known or suspect contaminated properties in the primary area of concern within the corresponding search radii (including the site)? Yes / No If No, then screening for a VEC is complete and no VEC *currently* exists, go to #4. If *Yes*, then:
- **(2)** Chemicals of Concern Test: Are COC likely to be present within the area of concern for those known or suspect contaminated sites identified based on the Search Distance Test? Yes / No If *No*, then screening for a VEC is complete and no VEC *currently* exists, go to #4. If *Yes*, then:
- (3) Critical Distance Test*: A plume test to determine whether or not COC in the contaminated plume(s) may be within the critical distance. Yes / No (3a) Is information related to the contaminated(s) plume available (i.e. iso-concentration maps, site drawings, etc.)?
- (3b) If No, then a VEC cannot be ruled out; check Yes in #4 below indicating it is likely a VEC exists. Yes / No
- (3c) Is the site less than 100 feet to the nearest edge of a contaminated [non-petroleum hydrocarbon] plume(s)? If *Yes*, then check *Yes* in #4 below indicating it is likely a VEC exists. Yes / No
- (3d) Is the site less than 30 feet to the nearest edge of a dissolved petroleum hydrocarbon plume(s)? Yes / No If **Yes**, then check **Yes** in #4 below indicating it is likely a VEC exists.
- (4) Is it likely that a VEC *currently* exists beneath the site? Yes / No

If *No*, then the VEC screening is complete and no further investigation is recommended at this time. If *Yes*, *EPI* recommends performing additional assessment, such as a Tier 2 VEC assessment according to ASTM E 2600-10.

*If the distance from the nearest edge of a contaminated plume to the nearest existing or planned structure on the site is less than 100 feet for non-petroleum hydrocarbon COC, or less than 30 feet for dissolved petroleum hydrocarbons, then it is presumed that a VEC *currently* exists beneath the site. If the distance from the nearest edge of the contaminated plume is greater than or equal to 100 feet for non-petroleum hydrocarbons, or 30 feet for dissolved petroleum hydrocarbon chemicals of concern, then it is presumed unlikely that a VEC *currently* exists beneath the site.

[1] Based on guidance presented in the ASTM E 2600-10 Standard.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by EPI - Environmental Property Investigations, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in bold italics are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/02/2025 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/02/2025 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page	
KRAYDEN,INC	1491 WEST 124TH AVEN	WSW 0 - 1/8 (0.123 mi.)	B11	70	
EPA ID:: COD983795931					

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 06/02/2025 has revealed that there are 3 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Lists of state and tribal landfills and solid waste disposal facilities

SHWF: A listing from the Solid Waste Information System, which is used to help administer the various programs of our solid waste and materials management program. It includes a wide variety of types of facilities and sites, and includes information obtained over several decades and numerous legacy data systems.

A review of the SHWF list, as provided by EDR, and dated 04/11/2025 has revealed that there is 1 SHWF site within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/02/2025 has revealed that there are 4 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

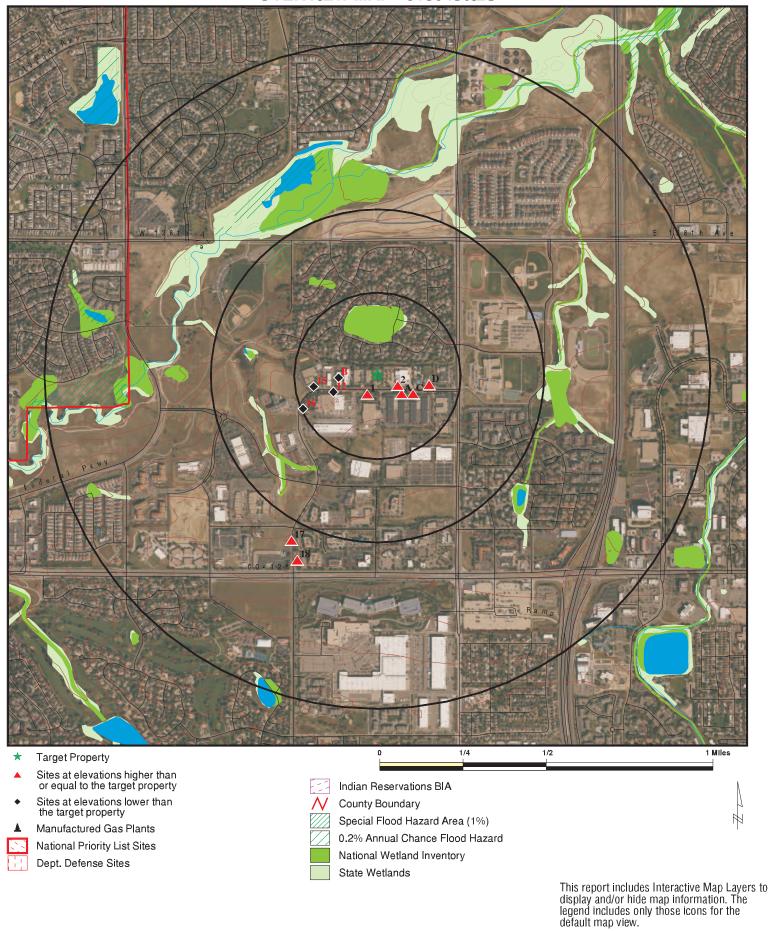

A review of the E MANIFEST list, as provided by EDR, and dated 06/02/2025 has revealed that there are

12 E MANIFEST sites within approximately 0.25 miles of the target property.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:

The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that

the discharge does not adversely affect water quality.

110003002081 Registry ID:

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code: D001

Waste Description: Ignitable Waste

Waste Code: D002

Waste Description: Corrosive Waste

Waste Code: D007
Waste Description: Chromium

Waste Code: D035

Waste Description: Methyl Ethyl Ketone

Waste Code: F003

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl

Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl

Alcohol, Cyclohexanone, And Methanol; All Spent Solvent
Mixtures/Blends Containing, Before Use, Only The Above Spent
Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends
Containing, Before Use, One Or More Of The Above Nonhalogenated
Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or
More Of Those Solvents Listed In F001, F002, F004, And F005; And Still
Bottoms From The Recovery Of These Spent Solvents And Spent Solvent

Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl

Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene,

2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of

These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U012

Waste Description: Aniline (I,T) (Or) Benzenamine (I,T)

Waste Code: U080

Waste Description: Methane, Dichloro- (Or) Methylene Chloride

Waste Code: U159

Waste Description: 2-Butanone (I,T) (Or) Methyl Ethyl Ketone (Mek) (I,T)

Waste Code: U228

Waste Description: Ethene, Trichloro- (Or) Trichloroethylene

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.

ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code: D001

Waste Description: Ignitable Waste

Waste Code: F001

Waste Description: The Following Spent Halogenated Solvents Used In Degreasing:

Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated

Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These

Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl

Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl

Alcohol, Cyclohexanone, And Methanol; All Spent Solvent
Mixtures/Blends Containing, Before Use, Only The Above Spent
Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends
Containing, Before Use, One Or More Of The Above Nonhalogenated
Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or
More Of Those Solvents Listed In F001, F002, F004, And F005; And Still
Bottoms From The Recovery Of These Spent Solvents And Spent Solvent

Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl

Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene,

2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of

These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

NO SITES FOUND

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

TRUST: Lust Trust Sites

Reimbursement application package. The 1989 Colorado General Assembly established Colorado's Petroleum Storage Tank Fund. The Fund reimburses eligible applicants for allowable costs incurred in cleaning up petroleum contamination from underground and aboveground petroleum storage tanks, as well as for third-party liability expenses. Remediation of contamination caused by railroad or aircraft fuel is not eligible for reimbursement. The Fund satisfies federal Environmental Protection Agency financial assurance requirements. Monies in the Fund come from various sources, predominantly the state environmental surcharge imposed on all petroleum products except railroad or aircraft fuel

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset, as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

UMTRA: Uranium Mill Tailings Sites

There were nine uranium mill tailings sites in Colorado designated for cleanup under the federal Uranium Mill Tailings Radiation Control Act. These nine sites, know commonly as UMTRA sites, were remediated jointly by the State of Colorado and the U.S. Department of Energy during the late 1980's and early 1990's. Mill tailings were removed from 8 of the mill sites and relocated in engineered disposal cells. A disposal cell is designed to encapsulate the material, reduce radon emanation, and prevent the movement of water through the material. At one site, Maybell, CO, the tailings were stabilized in-place at the mill site. After remediation of the tailings was completed, the State and DOE began to investigate the residual impacts to groundwater at the mill sites. The groundwater phase of the UMTRA program is on-going.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services,

a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary

and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are

comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Daycare Listing

Source: Department of Human Services

Telephone: 303-866-5958

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES. LLC OR ITS SUBSIDIARIES. AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT. INCIDENTAL. INDIRECT. SPECIAL. CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT. Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, LLC or its affiliates. All other trademarks used herein are the property of their respective owners.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.
